

The Reception topic for Summer 2 is 'All Around the World'.

Literacy

Children will continue to follow the Read Write Inc scheme to develop and embed children's phonetic knowledge. Please continue to read, practise sounds, and read tricky words by sight with your child at home to consolidate learning.

Children will learn to plan what they want to write. We will apply our phonic knowledge when writing captions, and sentences.

We will read a range of fiction and non-fiction books that link to our 'All Around the World' topic, learning new words that we can use in our play.

Mathematics

In mathematics we will explore the composition of numbers, practise automatically recalling number bonds to ten and subtraction facts to 5.

We will use Numicon to find one more and less than a number and when exploring doubles. We will continue to learn to write numerals to create number sentence.

The children will look for, name and describe 3D shapes. We will spend time making 3D shapes using sweets and sticks.

Personal, Social, Emotional Development

This half term we will encourage children to become confident to try new activities and show independence, resilience and perseverance in the face of challenge in preparation for Year 1.

Our Scarf learning will focus on rights and respect where we will learn to look after our friends and care for our world.

Expressive Arts & Design

This half-term the children are learning to safely use and explore a variety of materials, tools and techniques, experimenting with colour, design, texture, form and function. Children will share their creations, explaining the process they have used.

When being imaginative, children will invent and recount stories with their friends, perform songs, rhymes and poems.

Understanding the World

In understanding of the world, we will talk about how environments can be different to the one we live in.

We will focus our learning on changes of state and will explore this through water, jelly and chocolate. Children will make ice lollies and chocolate rice crispy buns to consolidate their learning.

Communication and Language

The children will listen to and understand what has been taught in non-fiction books, learning new vocabulary demonstrating their understanding of the vocabulary by using it in a range of contexts.

After our science experiments, children will explain why things might happen, making use of recently introduced vocabulary from non-fiction books.

Physical Development

PE will be on a Thursday morning for both Reception classes.

Elite coaches will continue to lead the sessions, this half term we will be focusing on ball skills.

Please ensure children bring PE kits every Thursday and have outdoor trainers or pumps and wear sun cream as some sessions may be held outside.
