

Key Knowledge

Knowledge Organiser

Airedale
Infant Academy

Autumn 1

We will learn about:

- Glue
- Tape
- Split pins
- Hole punch
- Designing
- A range of tools

- Glue is used to attach materials together.
- Scissors are tools for cutting.
- A hole punch cuts holes in paper.
- Split pins attach materials together so they can move.
- Masking tape is used to stick and hold different materials together.
- Sellotape is used to stick and hold different materials together.
- A design is a plan or drawing of what we are going to make.
- A design helps to decide what materials/ Resources we will need.
- When building I will choose the right tool to use.
- Different tools do different jobs.
