Spring 2

Animal life cycles

We will learn about:

- The life cycle of a butterfly
- The life cycle of a hen
- The life cycle of a plant

Plants need soil, sun and water to grow.

Animals and plants change and grow.

Eggs are an oval shape with a hard shell.

Animals and insects lay eggs.

A caterpillar builds a chrysalis.

A butterfly emerges from a chrysalis.

The hen lays an egg.

A chick hatches from an egg.

The chick grows up and changes into a chicken.
