Year Group: Reception

Topic: Out of this World

Key Knowledge

Knowledge Organiser

Spring 2

Out of this World!

We will learn about are:

- Primary colours
- Secondary colours
- Colour mixing
- Artists

Red, blue and yellow are primary colours.

Primary colours are colours that can be mixed together to create other colours.

A primary colour is a group of colours from which all other colours can be made.

A secondary colour is made from mixing two primary colours.

Blue and yellow create green.

Yellow and red create orange.

Blue and red create purple.
